शनैः विद्या शनैः वित्तं
पर्वताग्रं शनैः शनैः ।।
शनैः पन्थाः शनैः कन्था
शनैः पर्वमस्तके ।।

Dear Students,

The key idea behind this verse is:

"Great achievements happen gradually. Knowledge is gained slowly, wealth is accumulated slowly, journeys are completed step by step and even a mountain is climbed one step at a time."

Success comes step by step. In today's fast-paced world, students often expect instant results. They want high marks after a few days of study, success without consistent effort. However, the ancient Sanskrit wisdom "शनैः शनैः" (slowly and steadily) teaches us a valuable lesson: every worthwhile achievement requires patience, dedication and time.

Knowledge is not acquired overnight. A student who studies regularly, reads books, practices writing and learns from mistakes gradually develops a strong foundation. Just as a small seed takes time to grow into a mighty tree, a student's abilities grow through continuous learning and perseverance. The same principle applies to character building. Confidence, discipline, leadership and communication skills are not developed instantly. They are the result of daily habits and repeated efforts. Every chapter completed, every new word learned and every challenge overcome contributes to personal growth.

Many become discouraged when they do not see immediate progress. They compare themselves with others and lose motivation. The Sanskrit verse reminds us that even climbing a mountain begins with a single step. Success is not a sudden event; it is the outcome of countless small efforts made consistently over time.

Therefore, you should focus on progress rather than perfection. A few pages read every day, regular revision and disciplined time management can lead to remarkable achievements. Patience and persistence are the true companions of success.

So students do not rush the process. Learn steadily, work consistently and trust your journey. Step by step, your goals will become your achievements.

As "Slow and steady progress is still progress and every small effort brings us closer to success."

Ms. Meena Kothari, Editor

John Keats (31st October, 1795 - 23rd February, 1821)

John Keats was born on 31st October, 1795 in London, England. He was one of the greatest poets of the Romantic Age in English Literature. Keats made a remarkable contribution to English Literature through his beautiful poetry. His poetry is famous for its beauty, imagination and deep emotions. Keats faced many challenges in life; he lost both of his parents at an early age. He remained devoted to poetry. Some of his major works include

1. "Ode to a Nightingale", expresses his deep emotions while listening to the beautiful song of a nightingale. Keats reflects on human suffering pain, old age and death and expresses these emotions beautifully in this poem.
2. "To Autumn", celebrates the beauty, peace and richness of the autumn season. He presents autumn as a season full of maturity, life and natural beauty.
3. "Ode on a Grecian Urn", through the poem, Keats compares art with human life. Human life is temporary and full of pain, suffering and change, but art remain everlasting.
4. "La Belle Dame sans Merci", It is ballad, a story of a knight who meets a beautiful, mysterious lady.
5. "Endymion", is a long narrative poem, its is based on a Greek myth about Endymion. A young shepherd who was loved by the moon goddess Cynthia. The poem mainly talks about beauty, love, imagination and search of happiness. The famous opening line of the poem is 'A thing of beauty is a joy forever'.

Keats's poems mainly focused on nature, beauty and human emotions. Keats died on 23rd February, 1821 in Rome, Italy due to tuberculosis at the young age of 25. Even today, he is remembered as one of the greatest poets in English Literature.

Cleanliness Drive at Triveni Ghat

Under GCEI, we the students and teachers of Doon International Public School participated in a cleanliness drive at Triveni Ghat in collaboration with Neerja Devbhoomi Charitable Trust. The main aim of the campaign was to spread awareness about cleanliness and environmental conservation.

Students and volunteers enthusiastically cleaned the surroundings of the ghat by collecting plastic waste, bottles, wrappers and other litters. Equipped with gloves and garbage bags, they worked together with great dedication to make the area cleaner and more beautiful. The participants also interacted with visitors and shopkeepers, encouraging them to use dustbins, avoid plastic waste, and keep public places clean. The drive conveyed the important message that cleanliness is the responsibility of every citizen.

The initiative becomes a valuable learning experience for students, as it taught them teamwork, social responsibility and the importance of protecting the environment.

Celebrating Excellence: An Interview With Grade 12 Topper Sakshi Bisht

Success is the result of dedication, perseverance, and consistent hard work. This year, our school proudly celebrates the outstanding achievement of Sakshi Bisht, our Grade XII topper, whose determination and commitment have earned her this remarkable success. To learn more about the journey behind her achievement, we spoke with Sakshi about her study routine, the challenges she faced, how she managed stress and her future aspirations. Her inspiring journey offers valuable lessons and motivation to every student striving for academic excellence.

1. Anvika - How does it feel to be the school topper?

Sakshi Bisht: It feels truly special and overwhelming. It is a moment that I will always cherish. I am grateful for all the appreciation I received from my teachers, friends, and family after the results were announced. Seeing everyone feel proud and happy for me has been incredibly rewarding, and this achievement has given me greater confidence for the future.

2. Mansi - Did you expect to become the school topper, or did the result come as a surprise?

Sakshi Bisht: Honestly, I was expecting a good result. However, because of a few mistakes I made during the exams, I didn't think I would become the school topper. It came as a complete surprise. When I found out, I was shocked for a few moments and could hardly believe it. As the reality sank in, I felt extremely happy, grateful, and excited.

3. Anvika - What was your daily study routine?

Sakshi Bisht: I never forced myself to study for very long hours. Since I didn't attend tuition classes, I relied mainly on self-study. I believe that studying consistently for two to three focused hours is far more effective than spending five or six hours studying while being distracted.

I followed a regular study schedule, usually studying for two to three hours a day. During examinations, I increased my study time whenever necessary. My focus was always on understanding concepts thoroughly rather than simply counting the number of hours I studied.

4. Mansi - Was there any subject that you found challenging? How did you overcome it?

Sakshi Bisht: Yes. I found Political Science a bit challenging because I had difficulty remembering important dates and factual details. To overcome this, I noted all the important dates on a separate sheet and revised them regularly. This simple habit made it much easier for me to remember key events and concepts.

5. Anvika - How did you stay focused and avoid distractions during your preparation?

Sakshi Bisht: I stayed focused by studying consistently and making every study session productive. Whenever I studied, I kept my phone away. If I needed to use it for studying, I made sure to avoid checking messages or scrolling through social media unnecessarily.

Whenever I felt mentally tired or distracted, I took short breaks to refresh myself. As someone who tends to overthink and get stressed easily, there were moments when I found it difficult to stay focused. However, I kept reminding myself of my goal - to make myself and the people who believed in me proud. That motivation helped me remain determined and focused throughout my preparation.

Interview

6. Mansi- What study techniques or habits helped you achieve such excellent results?

Sakshi Bisht: The most important habit that helped me was consistency. I never believed in studying for extremely long hours every day. Whenever I felt mentally exhausted, I took short breaks or even rested for the remainder of the day instead of forcing myself to study. This helped me avoid burnout and stay genuinely interested in my studies.

I also used simple techniques to make learning easier. For example, I noted important dates on a separate sheet and revised them regularly. Sometimes, I tested myself by recalling dates and concepts without looking at my notes. I even created small challenges for myself, such as finishing a chapter before my phone finished charging.

7. Anvika- Exam time can be stressful. How did you relax and manage stress during your preparation?

Sakshi Bisht: Whenever I felt stressed or mentally exhausted during exams, I avoided putting too much pressure on myself. Instead, I took short breaks and spent time doing activities I enjoyed, which helped me relax and refresh my mind.

If I still felt anxious, I talked to people who truly understood me, whether it was a family member or friends who were going through the same phase. Their support and encouragement helped me feel lighter and manage stress more effectively. I also reminded myself that staying calm and confident was just as important as studying hard.

8. Mansi- Which moment or experience from your school life will you always cherish?

Sakshi Bisht: There are many memories that I will always treasure, but one of the most special ones was becoming the Discipline Captain. That experience helped me discover my true potential and build my confidence.

Before the selection interview, I thought I would be too nervous to speak confidently. However, after the interview Principal Ma'am and my teacher, appreciated my communication skills and encouraged me. Their appreciation made me realise that I was capable of expressing myself confidently in front of an audience.

Another unforgettable moment was receiving the sash from my father and the badge from Principal Ma'am during the Investiture Ceremony in the presence of my teachers, fellow students and Director Sir. It was a proud and memorable occasion that strengthened my confidence.

I will also always cherish the opportunities I received to participate in the choir and perform as an anchor. These experiences helped me discover new strengths, overcome my hesitation, and develop self-confidence. They remain some of the most valuable memories of my school life.

9. Anvika- What are your future plans and career aspirations?

Sakshi Bisht: I want to pursue a career that allows me to grow both personally and professionally. I have a strong interest in Psychology, especially in understanding how people think, behave, and respond in different situations. At present, Psychology feels like the right career path for me, and I look forward to exploring this field further and building my future in it.

10. Mansi - "What message would you like to give to the students appearing for the upcoming board examination."

Sakshi Bisht: Every student learns at their own pace, so never compare yourself with others. Stay consistent, believe in yourself, and follow a study routine that suits you. Take care of your mental health by taking short breaks, staying active, and talking to someone you trust when you feel stressed. If one exam doesn't go well, don't lose hope. Learn from your mistakes, focus on the next paper, and keep moving forward with confidence.

Thank you Sakshi for sharing your inspiring journey. We wish you continued success and a bright future. Your dedication and perseverance make the entire DIPS family proud.

Indian Army

Indian Army Day is celebrated on the 15th of January to honour the bravery, dedication, and sacrifice of the soldiers of the Indian Army. **This day marks a historic moment in 1949, when Field Marshal Kodandera Madappa Cariappa took over as the first commander-in-Chief of the Indian Army, becoming the first Indian to lead the Army after independence.** Indian Army day is marked by parades and ceremonies at Cariappa Parade Ground, New Delhi, honouring the strength and bravery of soldiers who protect the nation day and night.

Indian Army Day is a tribute to the silent courage of those who secure our tomorrow by sacrificing their today. While the nation rests, the Indian Army remains awake, quietly guarding our freedom. We salute the courage that stands unseen, yet forever stands for India.

The Power Of Kindness

I believe that even a small act of kindness can change the way people feel. A gentle word, a helping hand, or a simple smile can brighten someone's darkest day. Sometimes, it can make a big difference in someone's life. Helping someone feels like being a messenger of God. There is a lot of pain around us, and a little kindness can be a ray of hope in someone's difficult time. If I can help someone relieve their pain, it makes me feel truly happy. Kindness costs nothing, but its value is priceless for the one who receives it. Being kind to people and making them happy makes me feel good and gives me a deep sense of satisfaction. Happiness increases when it is shared and kindness spreads like light from one heart to another. I think that if everyone tries to be kind in their life, the world will become a happier and more peaceful place. A world filled with kindness is a world filled with love, hope and humanity.

Student Life : Preparation or Pressure?

Student life is often described as the best phase of life; however, many students experience it as stressful and demanding. One of the major reasons behind this is the excessive importance given to marks. Students who score high are appreciated and considered successful, while others are often judged as less capable, ignoring their talents, creativity, and practical skills. This creates unhealthy competition and constant pressure among students.

At the same time, it is believed that pressure helps students prepare for the future, but the current education system often places excessive stress on academic performance. Instead of encouraging curiosity, creativity, and understanding, it frequently pushes students towards memorisation and exam-oriented learning. Education becomes a race for marks rather than a means of gaining knowledge. Many students study not to understand concepts but simply to score well, which goes against the true purpose of education.

As a student and a future citizen of this country, I understand the importance of truly educated individuals for the development of society. True education is not limited to passing examinations; it involves developing skills, building confidence, and preparing students to face real-life challenges. Education should follow a futuristic approach that focuses on overall growth and personal development.

In conclusion, student life should be a balance between preparation and well-being. Marks may measure academic performance, but they do not define a student's true potential, abilities, or future success. A supportive learning environment that values knowledge, creativity, and skills is essential for shaping confident and capable individuals.

From Classroom to Career

School education builds the foundation of knowledge through subjects such as Mathematics, Science and Language. But it alone cannot prepare us for real - life situations. Success in the real world depends on skills that go beyond textbooks.

Communication is one such essential ability that helps us express ideas clearly and confidently. It helps in interviews, teamwork and leadership. Another important skill is time management, which teaches us how to plan our work, meet deadlines, and reduce stress. It also requires critical thinking and problem-solving. Instead of memorizing facts, we must learn to analyze situations and find practical solutions.

Education is not only about getting marks and degrees. Skills, attitude and adaptability also play a major role in shaping a successful future.

So, we should actively participate in school activities that help us to develop skills, such as debates, sports, group project, etc. Being involved in such activities builds confidence, teamwork, and gives real-life experience. True education is not about becoming a bookworm, but about growing into a well-rounded individual ready for the future.

Languages Spoken in Uttarakhand

Language is more than just a way of communication – it is a reflection of culture, identity and tradition. Every region has its own linguistic beauty and Uttarakhand, popularly known as the “Land of Gods”, is a perfect example of this diversity.

Located in the Himalayas, Uttarakhand is not only famous for its natural beauty and spiritual significance along with this, the state is also known for the different language's spoken by the people. These languages connect people to their roots and help in preserving the culture of the state.

Official Languages of Uttarakhand

The official language of Uttarakhand is Hindi and Sanskrit. Hindi is the most commonly language in the state. It is used in administration, education and daily communication, making it a common link among people from different regions.

Sanskrit is also an official language of Uttarakhand. It has great cultural and historical importance. Uttarakhand became the first Indian state to declare Sanskrit as its second official language, highlighting its deep connection with ancient tradition, scriptures and spiritual practices.

Regional Languages of Uttarakhand

Apart from official languages, Uttarakhand is home to several regional languages that reflect the identity of its people.

Garhwali is spoken in the Garhwal region. It has a rich tradition of folk songs, stories and traditions. Even though it is not widely used in formal education, it remains an important part of daily life and local culture.

Kumaoni is spoken in the Kumaun region. It is similar to Garhwali but it has its own unique words and style. It is closely connected with the traditions, festivals and lifestyle of the Kumaoni people.

Jaunsari is spoken by the people of the Jaunsar – Bawar region. It reflects the unique customs and traditions of the tribal communities living there.

Bhotiya language is spoken in the higher Himalayan regions, especially near border areas. These languages are influenced by Tibetan culture and are spoken by the Bhotiya communities.

Other Languages Spoken in Uttarakhand

Due to migration and its geographical location, several other languages are also spoken in Uttarakhand. Languages like Nepali, Punjabi and even some regional dialects from neighboring states can be heard, especially in border areas and cities. These languages increase the cultural diversity of the state and help people from different communities live together peacefully.

The language of Uttarakhand are an important part of its cultural and heritage. From Hindi and Sanskrit to Garhwali, Kumaoni, Jausari and Bhotiya, each language has its own importance. These languages keep the traditions and identity of the people alive. Therefore, it is important to protect and promote these languages so that future generations can stay connected to their culture and roots.

“आत्मा बोध”

अधर्म अधर्म क्या करता,
जब तू ना धर्म जानता ॥
पाप पाप क्या करे,
जब तू ना ये मानता ॥

मनुष्य है वही की जो,
मनुष्य की पूजा करे ॥

वह मनुष्य भी जिसने पीठ पीछे वार किया ॥
वह वीर भी जिसने प्राण त्याग दिया
दलित, पीड़ित और निर्बलों का कभी न अपमान कर
यही सत्य है, यही धर्म है सबका तू सम्मान कर

शीलता प्रदान कर,
ना कर हीनता ॥
हीन हीन क्या करे,
जब तू मानता नहीं ॥

Friendship

My Friend sits next to me in class,
We share our lunch and sometimes laugh.
We talk about our day at school,
And help each other follow rules.

When I am sad, my friend can tell.
They make me feel a little well.
I feel happy when we are together.
I hope our friendship lasts forever.

So, even if we change our class,
Or sit far away at last
I know my friend will always be
A special part of my memory.

Amazing Facts

- 1-The human body is made up of about 60% water.
- 2-The heart beats around 100,000 times every day, continuously pumping blood throughout the body.
- 3- Babies are born with more bones than adults, as some bones fuse together as they grow.
- 4-The stomach creates a new protective lining every few days to safeguard itself from its own acids.
- 5-The brain itself cannot feel pain because it does not have pain receptors.
- 6- Fingernails usually grow faster on the dominant hand.
- 7- The brain uses about 20% of the body's energy, even though it makes up only a small percentage of body weight.
- 8-The skin is the largest organ of the human body.
- 9-If all the blood vessels in the human body were placed end to end, they would stretch approximately 60,000 miles (96,000 km).
- 10-The human eye can distinguish millions of different colours.
- 11-The heart pumps around 2,000 gallons (7,600 liters) of blood every day.
- 12-The human brain is made up of about 73% water.
- 13- An average person blinks around 15-20 times every minute.
- 14- The nose can recognise and remember tens of thousands of different scents.
- 15-Tooth enamel is the hardest substance in the human body.
- 16- The smallest bone in the body is located in the ear.
- 17- The lungs contain hundreds of millions of tiny air sacs called alveoli, which help in breathing.
- 18- A single drop of blood contains millions of cells, including millions of red blood cells and thousands of white blood cells.
- 19- Humans share about 99.9% of their DNA with one another, making every person unique yet remarkably similar.
- 20- The liver is the only major internal organ that can regrow itself after losing part of its tissue.

Investiture Ceremony (2026-27)

We celebrated our Annual Investiture Ceremony for the session 2026 –27 on 16th April, 2026. The ceremony marked the formal induction of the newly elected Student Council.

The newly appointed leaders are: Head Boy – Arpit Lakhera, Head Girl – Angel Bisht; House Captains – Sarthak Kalura (Agni), Kanishka Negi (Akash), Aarush Rawat (Pawan), and Ankita (Prithvi); Activity Captain – Raijal Sinwal; Discipline Captains – Nachiket Sajwan and Akshita Saklani; Sports Captains – Priyanshu Singh Rangarh and Akriti.

The Chief Guest and Campus Director Mr. Sanjay Kuqsal along with Principal Dr. Tanuja Pokhariyal conferred badges and sashes upon the council members, who then took an oath to serve the school with sincerity, integrity and dedication.

The Chief Guest congratulated the newly elected leaders and encouraged them to uphold the values of service, discipline, teamwork and perseverance. The ceremony concluded with the National Anthem.

Activity Coordinator

Graduation Day Celebration - Session 2025-26

The Graduation Day Ceremony for the students of UKG was celebrated with great enthusiasm and joy on 29th March, 2026 at Doon International Public School. The event marked a memorable milestone in the lives of our little graduates as they stepped forward towards a new phase of learning.

The ceremony began with a warm welcome, followed by delightful cultural performances. Students from different classes presented beautiful dance performances that added vibrancy and excitement to the celebration. The audience thoroughly enjoyed the energetic and graceful performances.

The highlight of the event was the appearance of the UKG students dressed in elegant black graduation gowns. The tiny graduates looked adorable and confident as they proudly participated in the ceremony.

Our Principal felicitated the students with cute and encouraging titles such as Best Activities, Mr. Handsome, Mr. Chit Chat, Miss Beautiful, and many more. The excitement and happiness on the faces of the children made the occasion truly special.

A special highlight of the event was the selection of Mr. UKG – Rivansh Mehra and Miss UKG – Vinisha Ranghar, who confidently shared their speeches and expressed their feelings beautifully. Their confidence and enthusiasm were highly appreciated by everyone present.

Parents also shared their heartfelt thoughts and experiences during the ceremony. They expressed their gratitude towards the school and teachers for nurturing and guiding their children with love and care. Their words added warmth and emotional value to the celebration.

The students were presented with certificates, photographs, and special titles as tokens of love, appreciation, and remembrance. The memorable group photographs added more joy to the celebration and made the occasion even more special for the students and their parents.

The entire ceremony reflected the hard work, confidence, and achievements of the children throughout the academic session. The program concluded with a heartfelt vote of thanks, making the Graduation Day Ceremony a cherished and unforgettable experience for students, teachers, and parents alike.

Mother's Day Celebration

Mother's Day was celebrated with great joy and enthusiasm in our school on 11th May, 2026. All mothers were warmly invited to attend the special celebration. The venue was beautifully decorated, and the teachers lovingly prepared "Happy Mother's Day" badges along with number tags for the competitions. All the mothers were warmly welcomed with a tilak ceremony and special welcome badges prepared lovingly by the teachers. Number tags were also provided to them for the various competitions organised during the celebration.

The programme began with the lighting of the lamp followed by an inspiring address by the Principal who congratulated and appreciated all the mothers. Various fun games such as Musical Chair, Balloon Burst, and String Pulling Game were organised. Many mothers enthusiastically participated in dances and games. Winners and participants were awarded prizes for their performances.

The main attraction of the event was the Ramp Walk, where all mothers participated confidently and gracefully. Mrs. Minakshi Mehra, mother of Rivansh Mehra, was honoured with the title of "Mother of the Day" for her outstanding participation in all activities. At the end, all mothers and teachers danced together and enjoyed delicious snacks. The celebration was truly memorable and full of happiness.

Group Dance Competitions

The school organized Group Dance Competitions for both junior and senior categories, showcasing students talent, creativity and teamwork.

The Senior Category (Grades IX-XII) was based on the theme "Dance Forms of Uttarakhand." Student presented vibrant folk dances reflecting the rich cultural heritage of the state. Judged by Ms. Asha Joshi and Principal Dr. Tanuja Pokhariyal, Akash House secured the first position, followed by Pawan House and Prithvi House.

The Junior Category (Grades V-VIII) was held on the theme "Essence of Life." Through colorful and expressive performances, Students portrayed values such as energy, joy, peace, and growth. Pawan House emerged as the winner, while Akash House and Prithvi House jointly secured the second position and Agni House stood third.

The competition were a vibrant celebration of culture, expression and teamwork.
